

PRODUCT FEATURES

ELECTRO ERESION LUB.

ELECTRO LUB ERESION. Private refined paraffinic mineral base oils and superior additive package produced with Electro Eresion oil.

Field of use

Electro Eresion looms uniform dielectric layer formed between the electrode and the monitored component that is causing the erosion to produce maximum energy discharges and part of the most perfect reproduction.

Technical Specifications

- low viscosity in order to move away from processing residues
- Low volatility less smoke formation
- Very good and superior heat conduction
- High resistance to oxidation
- Good cooling feature

Typical Properties

Density 15 °C g/mL	0,803
Viscosity 40 °C, mm ² /s	2
Pour Point °C	-12
Flash Point °C	110

PACKAGING

16 kg	TIN
180 kg	DRUM

Warnings and Suggestions

Waste oil, soil, water, sewer, and trash pour. Clean, solid and tightly sealed in a container delivered to the nearest waste oil collection center please. Keep away from children, avoid continuous and long-term contacts. If swallowed, do not induce vomiting by force, seek medical attention. Do not leave exposed to direct sunlight. Store in a closed area, Keep it away from damp and humid environments.
